

BICES 2023

The 16th China Beijing International
Construction Machinery, Building
Material Machines and Mining
Machines Exhibition & Seminar

*Digital, Efficient,
Green and Reliable*

September 20th-23th, 2023

Beijing · China

About BICES

Founded in 1989 and held every other year in Beijing, China Beijing International Construction Machinery, Building Material Machines and Mining Machines Exhibition & Seminar (hereinafter referred to as BICES), being the earliest national construction equipment industrial show organized by the industry and for the industry in China, has become to be one of leading international trade show for construction, building and mining equipment in Asia with the 15th BICES having over 1200 exhibitors from 30 countries and more than 150,000 visitors from over 70 countries.

Why to BICES

To explore the world's largest manufacturing base and market for construction, building and mining machinery with tremendous business opportunities await you there.

1

BICES is not only a show, but also a biennial industry event organized and participated by CCMA and members, which provide you the best opportunity to meet with the industry players.

2

BICES gained long term attentions, supports and participations by China national EPC companies and groups who used to be headquartered in Beijing, capital of China, which will provide you with enormous opportunity to meet with key account buyers and clients that you can find nowhere in China.

3

More than one hundred of conferences, forums and seminars will be held during BICES as concurrent events and value-added services to attendees by the show organizers, partners, and exhibitors addressing the industry's latest issues and development.

4

The 15th BICES Data

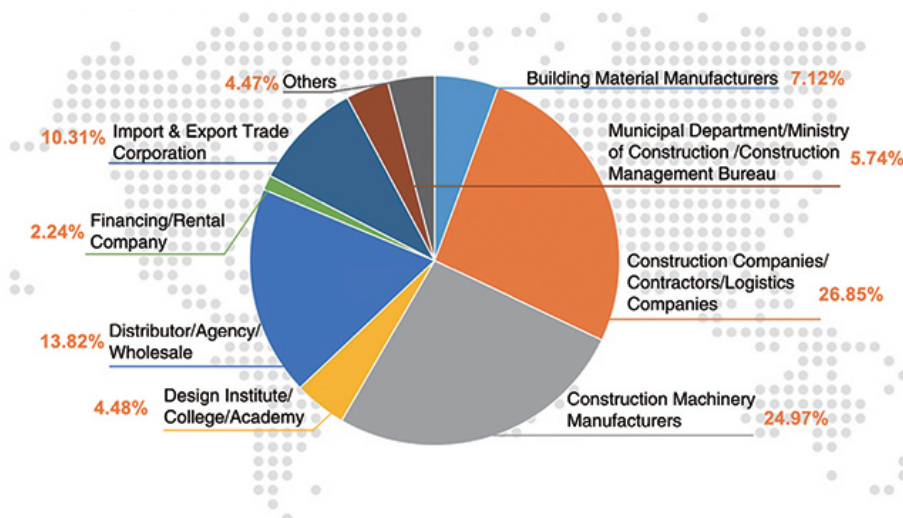

150,000m² Show Space

1,263 Exhibitors from over 30 Countries

151,835 Visitors from over 70 Countries

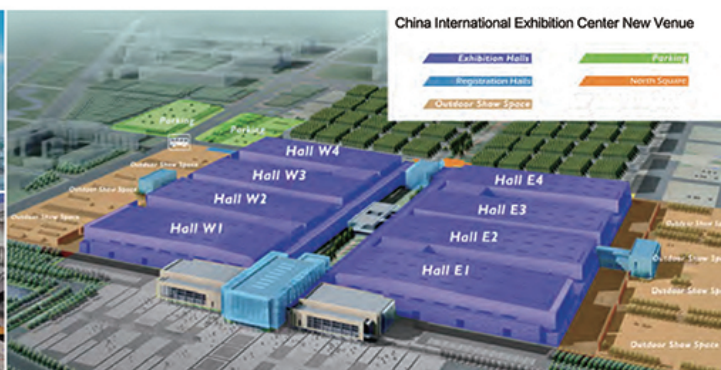

Distribution of Visitors by Industries

Exhibitor Glimpse

BICES Enjoys the Best Exhibition Venue of North China —China International Exhibition Center (New Venue)

Advanced Facility With Integrated Services

The venue consists of 8 indoor halls covering **160,000 m²** spaces under roof with modern show facilities and two pieces of out door spaces of **50,000 m²**, such as meeting rooms, business center, customs center, inspection and logistics center, which provides integrated services to exhibitors

Diversified Events and Conferences

Development & Strategy

- Top 50 Summit of CE Industry
- China-Africa Construction Machinery Cooperation and Development Forum
- "B&R" International Cooperation Forum on Construction Machinery

Technology & Innovation

- Construction Machinery Emission Stage 4 Technology Forum
- Global Aerial Work Platform Summit —— China Top 100 AWP Rental Company Award
- China CE Industry Standardization Conference

Concurrent Exhibition

- China International Emergency Rescue Equipment Exhibition
- China International Commercial Vehicle Exhibition

Value Added Services for Attendees

Free online registration is available by simply logging on www.e-bices.org, which will save your registration and queuing time.

Invitation letter will be provided for free of charge against request for those who have processed on line registration.

BICES organizers provide reception services for group visitors from overseas countries. Please contact us in advance if you are going to organize a visitor group to BICES.

Multi choices of hotels will be recommended ranging from 3 stars to 5 stars with easy traffic leading to the exhibition venue.

How to BICES 2023

The venue is located just 7.5km away from Beijing International Airport, which allows those attendees who come to Beijing by air to reach the venue within 15 minutes by drive, meanwhile subway line 15 has a stop just outside the main gate of the venue, which provides easy and fast transportation between downtown and the venue, furthermore, all the 3 airport express roads will lead to the venue from Beijing city, so there are multi-ways for drivers to pick up to reach the venue by drive.

(The Venue Location: Tian Zhu Kong Gang Development Zone, Shunyi District, Beijing, China 101312)

Welcome to Beijing

With more than 3000 years of recorded history, Beijing, capital of China, is the nation's political, cultural and educational center, and has rich places of historical interest, such as Forbidden City, Great Wall, and Summer Palace etc. Meanwhile, through the years' development, Beijing has become an international metropolis with many famous modern landscapes like Bird's Nest (Beijing Olympic Stadium), as well as with modern transportation system like high-speed rail. Welcome to Beijing to explore both business opportunity and an exciting trip !

Exhibitors Comments

The 15th BICES has come to an end perfectly, and Liugong's participation also ended with great success, I'd like to appreciate CCMA for its great support! We held a media open day and lighting ceremony at Liugong booth one day in advance, and took the lead to light up the 15th BICES, and released two series of new products and pure electric loaders and excavators for two consecutive days, which opened a comprehensive new energy "ecosystem".

Liugong showcased a full range of construction equipment and comprehensive solutions consisting of 36 latest equipment out of 13 categories with around 5,000 m² show space, and gained enormous attention and interest of both visitors and medias, which embodies Liu Gong's concept of continuous innovation and creating maximum value for customers.

Finally, we wish the best to CCMA and BICES, and Liugong will showcase more equipment and technology at BICES 2023, and see you again in Beijing,

—By Mr. Zeng Guang'an, Chairman, Liugong Group

The 15th BICES came to an end successfully, and provided exhibitors with platform not only for showcasing the latest equipment, technology and solution, but also opportunities to communicate with wide range of clients, for which CCMA is highly appreciated. Caterpillar launched a number of latest CAT excavators, graders and SEM brand bulldozers, loaders and road rollers. More over Caterpillar introduced its latest diversified service strategy and ceremoniously released an e-commerce retail platform specially designed for Chinese customers. In addition, the former NBA star Marbury and China's first UFC women's world champion Ms. Zhang Weili both presented at Caterpillar booth to interact with customers, which ignited the enthusiasm of visitors and lighted the show.

With recovery of the construction machinery industry, exhibition market will also continue to prosper. We hope that CCMA can move forward steadily, get BICES well organized, and hence assist sustainable development of China construction machinery industry!

—By Mr. Chen Qihua, Vice President ,Caterpillar Inc.
